

Aluminum railing system

Aluminum railing

Aluminum railing

1. Our aluminum railings are widely used in many area: balcony, staircase, swimming pool, flat roof, etc...
2. Style: aluminum railing and aluminum-glass railing
3. Assemble with screw, easy for connection and transportation, but without any screw exposed, avoiding any possible unsafety.
4. Easily installed with embedment in concrete or aluminum foot welded on the railing, both ensure the strength and security of the whole railing
4. The aluminum railing is elegant in appearance and free of repainting maintenance.
5. Various pattern and color cater to your aesthetic appeal.
6. Safety glass will be used for aluminum-glass railing.
